

Intern Cohort #7

January 2023 -
June 2023

Hey! My name is Jan and I come from Spain. I moved from Madrid to Berlin back in 2018 to study Art History and Spanish Philology. I immediately fell in love with the city and its way of living. Having been raised in a half-spanish and half-german family, I have always been in contact with these two different cultures; this shaped my general interest in the exchange with people who have different backgrounds and histories than me. As Kulturschöpfer offers the possibility of doing this in an open and multicultural community, while focusing on areas I am really interested in regarding my future, like art, communication and other social and cultural activities, I see the Training Program as a great opportunity to expand my horizon both on a professional and on a personal level. I really share the values of Kulturschöpfer and see them as the way to go to learn and to get inspired, so it is just great that this place offers so much at once!

Hi I am Josh, and I am from the United States. For the past few years I have based my studies and work experiences around marketing. I enjoy traveling and sharing my experiences with others. Having moved 19 times, I have lots of experience with different types of people, as well as different cultures. Although I am new to Berlin, I came here with the hope that I can learn more about myself, more about who I want to be, and more about what I want to do with my career. Moving here and putting myself in a position where I'm challenged to engage create and inspire is something I'm really looking forward to. I am excited to learn more about myself, and more about the world through other peoples' experiences in the community that KS provides.

I'm Verdah! I moved to Berlin from New York after university to immerse myself in Berlin's diverse art scene as well as to gain experience working with creative platforms and explore other roles through them. I love to travel and learn new languages as I encounter different people and the way they make their communities and cultures. Kulturschöpfer's holistic mission to unite communities through engagement as creators of culture was, therefore, a natural step in my journey that I had to take. The spirit of creation and collaboration that permeates KS gives me a platform to explore the idea of community and how to not just live, but thrive, within it.
